

COWMED®

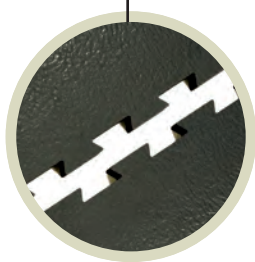

La cama para ganado más resistente, cómoda e higiénica del mundo.

Fastening Systems

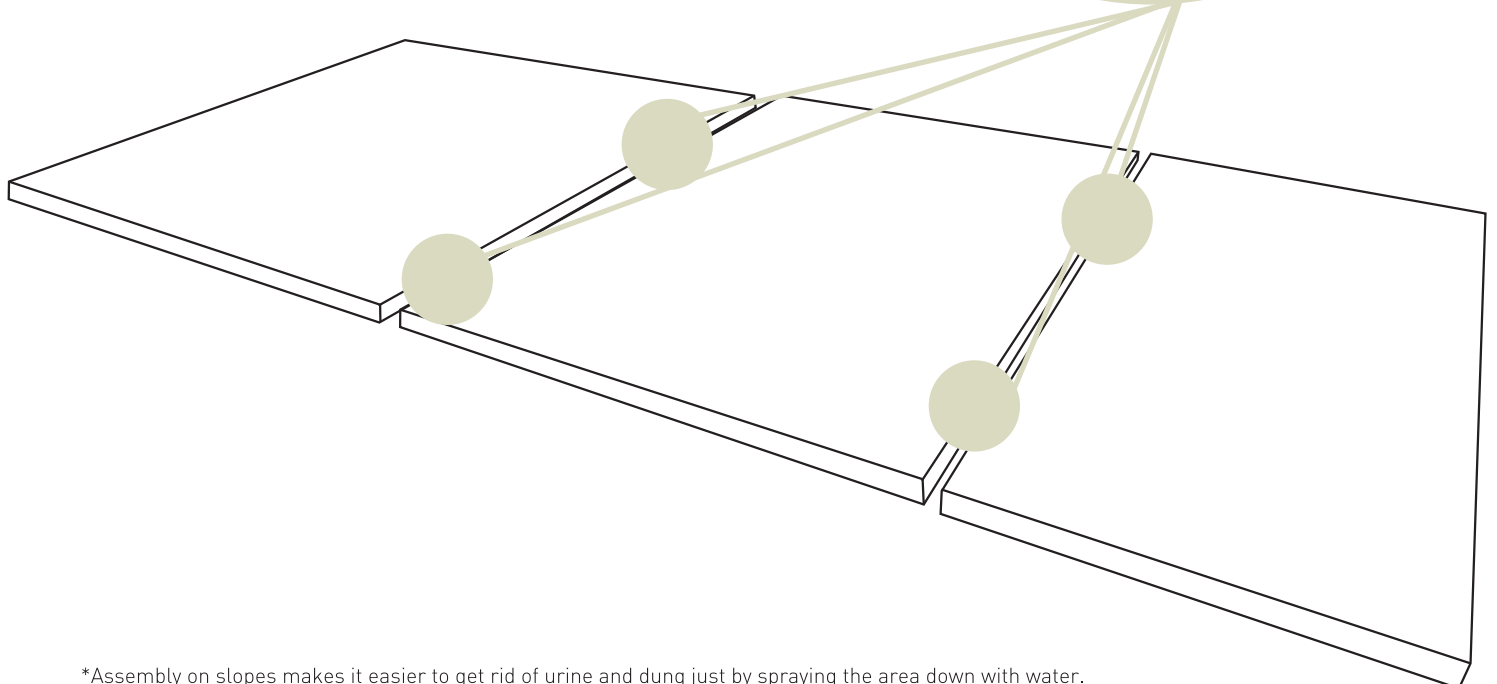

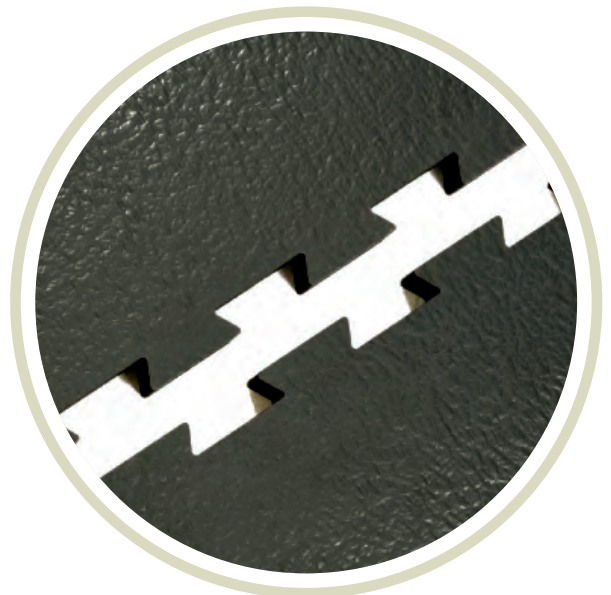

INTER-LOCKING

This assembly method is like a puzzle pattern on the sides of the sheets used to fasten them together easily to create a continuous fixed mat so that all the separate pieces don't move.

Pieces that have not been joined together

Joined pieces

*Assembly on slopes makes it easier to get rid of urine and dung just by spraying the area down with water.
